Daily stories

2022 indoor collection

connubia

Ogni casa vive storie di quotidianità e storie straordinarie, eventi che si susseguono e che nutrono la nostra memoria e le nostre emozioni.

Viviamo lo spazio domestico con la famiglia, con gli amici ed amiamo condividere ciò che ci appartiene e ci circonda con gli altri, perché ci dona gioia e serenità.

Per questo Connubia ha scelto di entrare nelle vostre case, dove si respirano la vostra quotidianità e le vostre abitudini.

Abbiamo fatto nostro il vostro modo di abitare, abbiamo seguito il vostro ritmo quotidiano ed abbiamo realizzato degli arredi che potessero aggiungere valore al vostro tempo in casa.

Questa è la nostra collezione: brillante, spontanea e colorata.

Sta a voi scoprirla e renderla viva con le vostre storie.

Every home has stories of everyday life and extraordinary events, that follows from one to another and that nourish our memory and our emotions.

We live at our home environment with family, with friends. It is a place where we share our belongings with each other. Space where we are surrounded with people that share with us our joy and serenity.

For this reason, Connubia has chosen to enter your homes, where you can breathe your everyday life and embrace your daily habits.

We have looked into the way you live; we have followed your daily rhythm and we have created furniture that could add value to the time you spend at home.

This is our collection: bright, spontaneous, and colourful.

It is up to you to discover it and bring it to life with your stories.

Daily stories

About us

Connubia: una storia di passioni e di legami

Connubia è un brand di Calligaris Group, la realtà italiana che ha saputo evolversi nei suoi 100 anni di storia grazie alla capacità di amalgamare sapientemente abilità artigianali e innovazione.
Ciò che ci motiva è fare dei prodotti che incontrino il gusto delle persone e le uniscano. Prodotti che creino valore con una importante attenzione al bene del nostro pianeta.
Lo facciamo combinando le conoscenze e le competenze dei nostri artigiani, tramandate negli anni a promettenti giovani talenti, con nuove tecnologie, nuovi materiali e tecniche di sviluppo innovative.
Tutti i materiali che utilizziamo rispettano severi standard dove la qualità e la sostenibilità sono elementi essenziali in ogni passaggio del processo di ideazione e produzione.
È per questo che i prodotti Connubia sono belli, funzionali e fatti per durare nel tempo.

Connubia: a story of passions and ties

Connubia is a brand of Calligaris Group, the Italian reality that has been able to evolve in its 100 years of history thanks to the ability to skillfully amalgamate craftsmanship and innovation.
What motivates us is to make products that meet the taste of people and unite them. Products that create value with a special attention to the well-being of our planet.
We do this by combining the knowledge and skills of our artisans, handed down over the years to promising young talents, with new technologies, new materials and innovative development techniques.
All the materials we use comply with strict standards where quality and sustainability are essential elements in every step of the design and production process.
This is why Connubia products are beautiful, functional and made to last.

introduzione | introduction

GREENBOW our sustainable agenda

«Non vi promettiamo subito il 100% green in ogni cosa, ma di sicuro il 100% di impegno e trasparenza per dare il nostro contributo ad un futuro sostenibile.»

«We do not immediately promise you 100% green in everything, but certainly 100% commitment and transparency to make our contribution to a sustainable future.»

Calligaris Group & Connubia sono determinate a fare la differenza sul tema della sostenibilità.
Il programma Greenbow vuole strutturare e organizzare le attività aziendali dedicate a questo tema agendo su 2 fronti: quello del Prodotto, creando arredi green, composti da materiali naturali e riciclati e pensando alla circolarità, e quello del sistema Azienda, per un approccio sostenibile allo sviluppo, alla produzione e alla distribuzione dei prodotti.
L'agenda di sostenibilità Greenbow è il nostro impegno preciso e misurabile per conservare il pianeta per le generazioni future, nel rispetto dei principi dell'agenda ONU 2030.
Greenbow si fonda sull'applicazione di indicatori analitici che permettono al Gruppo di definire gli obiettivi di sostenibilità e misurarne i progressi.

Calligaris Group and Connubia are determined to make a difference on the issue of sustainability.
The Greenbow program aims to structure and organize corporate activities dedicated to this theme by acting on 2 fronts: on the Product, creating green furnishings, composed of natural and recycled materials and thinking about circularity, and on the Company system, for a sustainable approach to product development, production and distribution.
The Greenbow sustainable agenda represents our precise and measurable commitment to preserving the planet for future generations, while respecting the principles of the UN 2030 agenda.
Greenbow is based on the application of analytical indicators that allow the Group to define sustainability targets and measure their progress.

“ZERO”
design studio Archirivolto

«La sostenibilità e l’impegno ambientale sono ormai obbligatori per poter proporre un progetto, un’idea, un prodotto.»

«Sustainability and environmental commitment are now mandatory to propose a project, an idea, a product.»

Il design ha nuove responsabilità nel mondo sempre più complesso che stiamo vivendo e la sostenibilità dei progetti attraverso la semplificazione dei processi, assume un ruolo fondamentale nella progettazione.
ZERO è una sedia in kit, realizzata in plastica da riciclo postindustriale che può essere nuovamente ed interamente riciclata.
Per assemblarla non servono attrezzi, ma basta una semplice moneta. Non ha pezzi metallici e tutti i suoi componenti sono sostituibili per un utilizzo duraturo nel tempo. Anche il design del packaging è stato guidato dalla sostenibilità: realizzato in cartone riciclato, questo pack dalle dimensioni ridottissime consente di spedire flat il prodotto così da facilitarne la distribuzione e lo stoccaggio, abbattendo l’impatto ambientale della attività di logistica.
Perchè abbiamo scelto un design così semplice?
Per nascondere la sofisticata ricerca tecnologia e culturale che c’è dietro ad un prodotto come questo, donandogli un aspetto rassicurante e di memoria.
Le sue forme sono lineari, morbide e confortevoli, e disegnano ZERO esattamente come ce la siamo sempre immaginata.

Design has new responsibilities in the increasingly complex world we are living in and the sustainability of projects through the simplification of processes, plays a fundamental role in the design.
ZERO is a kit chair, made of post-industrial recycled plastic that can be once again completely recycled.
To assemble it you do not need tools, but just a simple coin. It has no metal parts and all its components are replaceable for a long-lasting use.
The packaging design has also been driven by sustainability: made of recycled cardboard, this pack has very small dimensions and allows you to flat ship the product so as to facilitate the distribution and storage, reducing the environmental impact of the logistics activity.
Why did we choose such a simple design?
To hide the sophisticated technological and cultural research behind a product like this, giving it a reassuring look.
Its shapes are linear, soft and comfortable, and they design ZERO exactly as we always imagined it.

I am green

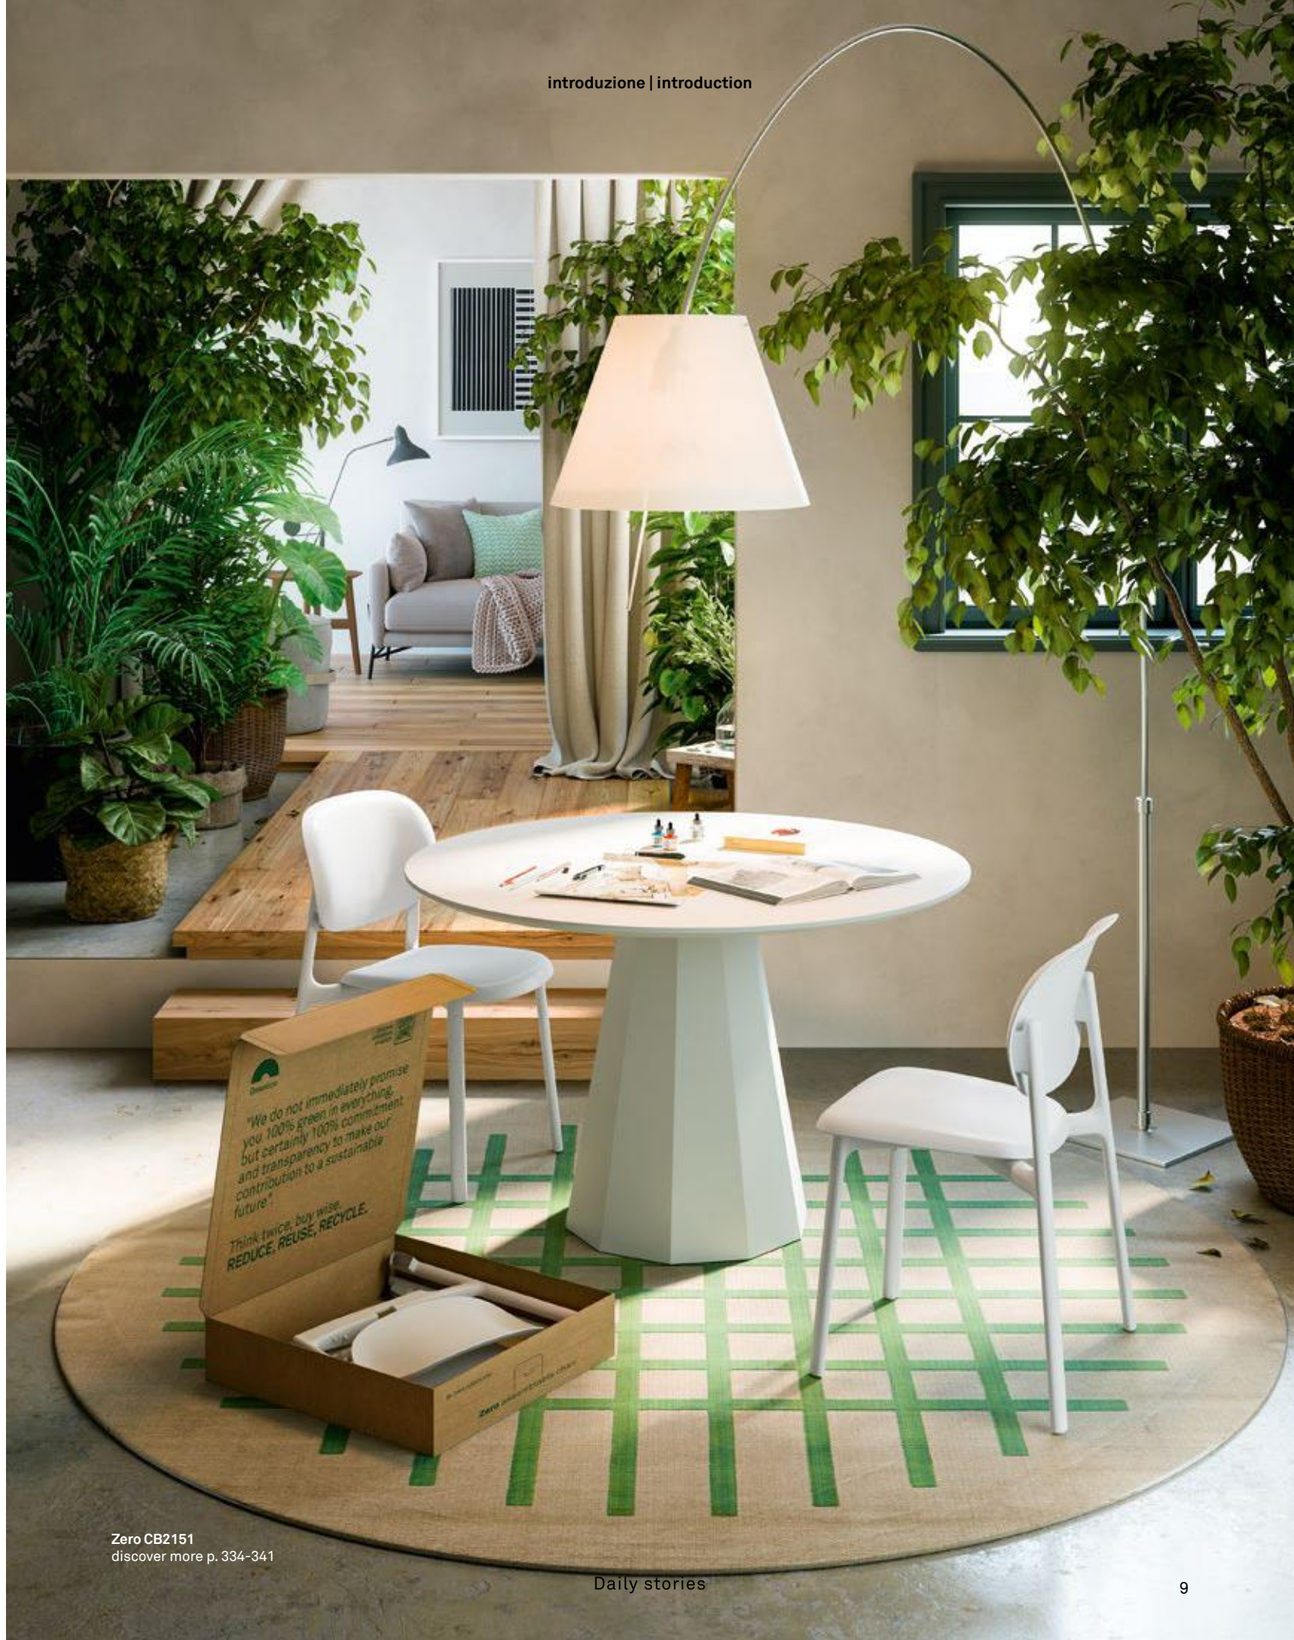

Zero è interamente realizzata in tecnopolimero termoplastico con poliolefine riciclate al 100%. Questo materiale permette di realizzare prodotti molto più rispettosi dell'ambiente perché derivanti dal riciclo di scarti industriali altrimenti destinati allo smaltimento. Zero non si limita solo a non impiegare nuove risorse fossili, ma addirittura riqualifica sfridi e scarti industriali che ritornano nel ciclo produttivo come materie prime senza compromettere l'aspetto estetico e funzionale del prodotto. Un risparmio per l'industria e per l'ambiente, in accordo con i principi dell'economia circolare.

Zero is entirely made of thermoplastic technopolymer with 100% recycled polyolefins. This material allows to make products much more environmentally friendly because they derive from the recycling of industrial waste otherwise destined for disposal.
Zero not only doesn't use new fossil resources, but even requalifies industrial waste that return in the production cycle as raw materials without compromising the aesthetic and functional aspect of the product. A saving for industry and the environment, in accordance with the principles of the circular economy.

“REEF”
design Michele Menescardi

«La poltrona 100% green di Connubia dove ogni elemento è stato studiato in un’ottica ecosostenibile e circolare.»

«The 100% green armchair by Connubia where every element has been designed with an eco-sustainable and circular approach.»

La poltrona “Reef”, con i suoi colori accesi e il suo spirito leggero, segna una nuova consapevolezza progettuale che ha visto azienda e designer collaborare fianco a fianco per trovare soluzioni innovative capaci di dare vita a una produzione sostenibile e responsabile. Ecco allora che le sue linee disegnano un prodotto senza tempo, ma estremamente contemporaneo dove ogni elemento è stato studiato in un’ottica ecosostenibile e circolare, perfetta espressione della filosofia “Greenbow” di Calligaris Group.
La struttura interna è costituita da legnami provenienti da foreste certificate FSC® (FSC-C002023) mentre le imbottiture derivano da poliuretani riciclati da materassi dismessi e dal riciclo di contenitori post-consumo di poliestere.
Ma l’innovazione sta anche a soprattutto nel tessuto con il quale la “Reef” è rivestita. Creato interamente con plastica riciclata post-consumo, dai detriti plastici che galleggiano nei nostri mari e dalle bottiglie in plastica destinate alla discarica, questo particolare rivestimento è stato realizzato insieme a SEAQUAL, la community che combatte l’inquinamento marino ripulendolo dalla plastica. Per ogni “Reef” prodotta, infatti, vengono utilizzate oltre 100 bottiglie di plastica recuperata dal mare, contribuendo concretamente alla missione di pulizia della terra e degli oceani. Anche nella realizzazione del packaging è stata data priorità alla sostenibilità utilizzando esclusivamente cartone riciclato con stampa a basso impatto ambientale.
Insomma, con “Reef” si può contribuire a salvare gli oceani restando comodamente seduti in poltrona.

The “Reef” armchair, with its bright colors and its light spirit, marks a new design awareness that has seen the company and designers collaborate side by side to find innovative solutions capable of creating a sustainable and responsible production.
This is why its lines draw a timeless but extremely contemporary product where each element has been studied with an eco-sustainable and circular approach and are the perfect expression of Calligaris Group’s “Greenbow” philosophy.
The internal frame is made of woods coming from FSC® (FSC-C002023) certified forests, while the padding comes from recycled polyurethanes from disused mattresses and from the recycling of post-consumer polyester containers.
But innovation also lies above all in the fabric with which the “Reef” is upholstered. Created entirely with post-consumer recycled plastic, from the plastic debris floating in our seas and from plastic bottles destined for landfill, this particular upholstery has been made together with SEAQUAL, the community that fights marine pollution by cleaning it from plastic.
For each “Reef” produced, in fact, more than 100 plastic bottles, recovered from the sea, are used, contributing concretely to the mission of cleaning the land and the oceans. Sustainability was also given priority in the packaging process, using exclusively recycled cardboard with low environmental impact printing.
In short, with “Reef” you can help save the oceans by sitting comfortably in an armchair.

I am green

Ogni materiale impiegato, dal rivestimento, alla struttura interna, al packaging, è stato selezionato in un'ottica ecosostenibile e circolare. L'imbottitura è composta da poliuretano espanso riciclato derivato dall'agglomerazione di rifiuti ingombranti (divani, materassi) e da scarti di produzione delle filiere dell'arredamento e dell'industria tessile. Il secondo materiale utilizzato per l'imbottitura è l'ovatta in fibra di poliestere termolegata costituita da almeno il 70% da fibra di poliestere ottenuta dal riciclo di contenitori post-consumo di poliestere colore bianco. Il tessuto è creato interamente con plastica riciclata post-consumo, dai detriti plastici che galleggiano nei nostri mari e dalle bottiglie in plastica gettate via e destinate alla discarica. Il DNA green della poltrona Reef continua nella struttura in legno, certificata FSC® (FSC-C002023): Il marchio identifica i prodotti contenenti legno proveniente da foreste gestite in maniera corretta e responsabile secondo rigorosi standard ambientali, sociali ed economici.

Every material used, from the upholstery, to the internal frame, to the packaging, has been selected with an environmentally sustainable and circular approach. The padding is composed of recycled polyurethane foam derived from the agglomeration of bulky waste (sofas, mattresses) and from production waste from the furnishing industry and the textile industry. The second material used for the padding is the wadding of thermo-bonded polyester fiber consisting of at least 70% polyester fiber obtained from the recycling of post-consumer white color polyester containers. The fabric is created entirely from post-consumer recycled plastic, from the plastic debris floating in our seas and from the plastic bottles thrown away and destined for landfill. The green DNA of the Reef armchair continues in the FSC® (FSC-C002023) certified wooden frame: The brand identifies products containing wood from forests managed correctly and responsibly according to strict environmental, social and economic standards.

Join the CONNUBITY

Un concept che si evince già dal nome, Connubia, che parla di incontri e di passioni, di legami e di affinità.

Connubia è il brand giovane e contemporaneo del Gruppo Calligaris, che si ispira al nuovo concetto di #connubity, una parte essenziale del DNA del marchio che ne incarna lo spirito e rappresenta ciò di cui si fa portavoce: creare una nuova community di persone legate dalla stessa passione per il design fresco e dinamico e per le novità irreverenti!
I prodotti Connubia hanno un design semplice, funzionale, dove il colore esprime vitalità e personalità. Prodotti che vogliono essere rispettosi dell'ambiente utilizzando sempre di più materiali ecosostenibili a basso impatto ambientale. Non solo sedie e tavoli, ma anche complementi, accessori e mobili contemporanei capaci di adattarsi a contesti diversi e di creare spazi di ispirazione per la vita, il lavoro e la comunità.
Design che sanno raccontare le storie di ogni giorno, perché è proprio dallo stare seduti insieme intorno ad un tavolo che nascono incontri, condivisioni ed emozioni che Connubia mette al centro della propria ispirazione.

A concept that can be deduced by the name, Connubia, which talks about encounters and passions, ties and affinities.

Connubia is Calligaris Group's young and contemporary brand. It was inspired by the new **#connubity** concept, an essential part of the brand's DNA, which embodies its spirit and what it represents: creating a new community of people bound by the same passion for a fresh and dynamic design and for the irreverent news!
Connubia products have a simple, functional design, where color expresses vitality and personality. Products that want to be environmentally friendly using more and more eco-friendly materials with low environmental impact.
Not only chairs and tables, but also occasional furniture, accessories and contemporary furniture able to adapt to different contexts and create inspiring spaces for life, work and community.
Designs that know how to tell every day stories, because it is from sitting together around a table that encounters, sharing and emotions are born. This is what Connubia puts at the center of its inspiration.

A REAL HOME, yours

La collezione Connubia nel contesto di case vere... le vostre!

Ecco a voi le vostre case!
Non quelle degli architetti, dei designer, della pubblicità patinata o delle serie televisive.
Parliamo di case vissute tutti i giorni, stanze spesso stracolme di oggetti, dentro alle quali mangiamo, lavoriamo, leggiamo, insomma viviamo le nostre storie quotidiane.
Abbiamo immaginato un nuovo mood fotografico, un'esperienza reale all'interno della #Connubity, inserendo gli arredi della nuova collezione Connubia nel contesto di case vere... le vostre!
L'ambiente domestico è stato lasciato inalterato, non abbiamo voluto interferire con gli oggetti più personali ed autentici che rispecchiano noi stessi, voi stessi.
Entriamo insieme.

The Connubia collection in the context of real homes... yours!

Here is your home!
It is not home of the architects, designers, polished advertisements, or home from television series.
We are talking about homes where we live every day, rooms often full of objects of everyday life, in which we eat, work, read, in short, we live our daily stories.
We have imagined a new photographic mood, a real experience inside the #Connubity, inserting the furniture of the new Connubia collection in the context of real homes... yours!
The home environment has been left unaltered, we do not want to interfere with it, your personal and authentic objects reflect ourselves, yourself.
Let's go in together.

finiture materiali / finishing materials

Connubia collection finishes

Tutti i materiali che utilizziamo rispettano severi standard qualitativi. I tessuti che abbiamo selezionato per voi sono piacevoli al tatto, resistono alle macchie e mantengono inalterati i colori anche dopo molto tempo. I nostri piani in ceramica hanno eccezionali caratteristiche di resistenza, sono facili da pulire e assolutamente igienici. Il legno che utilizziamo viene protetto con speciali cicli di verniciatura che offrono un'efficace barriera contro le macchie. Calligaris S.p.a. è inoltre certificata FSC, il marchio che identifica i prodotti contenenti legno proveniente da foreste gestite in maniera corretta e responsabile secondo rigorosi standard ambientali, sociali ed economici.

All our materials comply with the strictest quality standards. For your pleasure, we have sourced fabrics which are not only delightfully tactile and stain-resistant, but ones which hold their colour over time. Our ceramic tops are exceptionally hard-wearing, easy to clean and utterly hygienic. Our wood is protected with special varnishing processes which create an effective barrier against staining. In addition, Calligaris S.p.a. is FSC certified, meaning that it only uses wood that comes from well-managed forests in compliance with strict environmental, social and economic standards.

LEGNI | WOOD TYPES

LEGNO MASSELLO | SOLID WOOD

È ottenuto direttamente dal tronco dell'albero mediante lavorazioni meccaniche. Le particolarità estetiche e di venatura sono caratteristiche dell'essenza legnosa utilizzata. Il legno massello viene finito nelle tonalità tipiche delle varie essenze con una lavorazione di verniciatura (la finitura).

Obtained by cutting the tree log through a mechanic process. The aesthetic features and grain pattern depend on the wood essence. Solid wood is usually varnished (finishing process) and reproduces the typical essence shades.

IMPIALLACCIATURE | VENEERS

Si realizzano utilizzando fogli di legno nobile di spessore variabile ricavati direttamente dai tronchi di migliore qualità. Questi vengono poi incollati su vari supporti e finiti nella tonalità di tinta desiderata. Conferiscono grande qualità ai prodotti ed un eccellente risultato estetico.

Veneer is obtained by using thin sheets of wood with different thicknesses which are taken from the best quality tree logs. Veneer layers are usually glued to a support and then stained accordingly. Veneer increases the quality of the products and delivers an excellent aesthetic result.

LAMINATI | LAMINATED FINISHES

Sono rivestimenti prefiniti ottenuti incollando a pressione più strati di materiale fibroso impregnato con resine termoindurenti e spalmato sullo strato decorativo (unicolore o stampato) con resine melaminiche. Vengono quindi incollati su un pannello di particelle di legno (supporto). Garantiscono una grande varietà di soluzioni estetiche e ottime caratteristiche di stabilità, resistenza all'usura, agli urti, all'abrasione e all'umidità.

Obtained by pressure gluing various layers of fibrous material soaked in thermosetting resins and spread on the visible layer (plain coloured or patterned) with melamine resins. They are then glued on a wooden grain panel (support). Laminated panels allow a great variety of aesthetic solutions and have excellent stability, resistance to wear and tear, collisions, abrasion and humidity.

LAMINATI STRATIFICATI HPL | MULTILAYER LAMINATE TOPS (HPL)

Il laminato stratificato utilizzato è un materiale autoportante di spessore 10mm costituito da più strati di materiale fibroso impregnati con resine termoindurenti e pressati tra loro ad alta pressione. La superficie esterna del pannello è realizzata in laminato decorativo a base di resine termoindurenti.

This multilayer laminate is a 10 mm thick, self-supporting material formed with different layers of fibrous material absorbed with thermosetting resins and pressed together under high pressure. The external surface of the panel is a decorative laminate made with a base of thermosetting resins.

NOBILITATI (SUPERFICI TERMO-STRUTTURATE) | MELAMINE FINISHES – THERMAL STRUCTURED SURFACES

Sono rivestimenti prefiniti ottenuti utilizzando carte (unicolori o stampate) impregnate e spalmate sul lato decorativo generalmente con resine melaminiche, che vengono applicati su un pannello di particelle di legno (supporto). Garantiscono una grande varietà di soluzioni estetiche, ottima stabilità e buone caratteristiche di resistenza all'usura e durata nel tempo.

Obtained by gluing plain coloured or patterned sheets which are spread on the visible layer with melamine resins on a wooden grain panel (support). Melamine coated panels allow a great variety of aesthetic solutions, they are durable and have excellent stability and resistance to wear and tear.

ECO-STONE

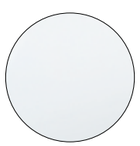

P1E
SALE PEPE
salt pepper

Realizzato con materiale riciclato, ricavato dal recupero della vetroresina e di altri compositi fibrorinforzati postconsumo. Sono riaggregati a pressione elevata garantendo al prodotto robustezza e stabilità in ogni condizione ambientale. Materiale ecosostenibile e nuovamente riciclabile a fine vita. Leggere differenze nella tonalità dei piani e nella dimensione dei grani non sono da ritenersi un difetto, ma una caratteristica del materiale.

Made of recycled material, obtained from the recovery of fiberglass and other post-consumption fibre-reinforced composites. They are re-aggregated at high pressure ensuring the product robustness and stability in all environmental conditions. Eco-sustainable and recyclable material at the end of life. Slight differences in the shade of the tops and in the size of the grains are not to be considered a defect, but a characteristic of the material.

CERAMICA | CERAMIC

ACCOPPIATO CERAMICA-VETRO | LAMINATED CERAMIC-GLASS

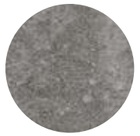

Il top ceramica-vetro è un prodotto autoportante ottenuto accoppiando, con uno speciale procedimento in autoclave, una lastra di ceramica (gres porcellanato) ad un vetro float temprato. Lo spessore della lastra di ceramica è di 3 mm, ed è accoppiata con un vetro di spessore 8 mm (totale 11 mm). Il gres porcellanato è un materiale ceramico ottenuto da materie prime di speciale pregio e purezza, macinate e colorate nell'impasto, compattate ad altissima pressione e cotte alla temperatura di 1200 °C.
Il piano di lavoro in gres porcellanato offre caratteristiche eccezionali in termini di resistenza ai graffi, agli urti, alle macchie, agli sbalzi termici ed ai prodotti chimici. È facile da pulire ed assolutamente igienico in quanto non assorbe liquidi e non rilascia sostanze nocive.

The ceramic-glass top is a self-holding product manufactured by coupling one ceramic plate (porcelain tile) to a tempered floating glass thanks to a special process carried out in autoclave. The ceramic plate thickness is 3 mm and is coupled with an 8 mm thick glass (for a total of 11 mm). The porcelain tile is a ceramic material obtained using a mixture of stoneware composed by clay and valuable raw materials, which are mixed, body tinted, compacted whilst high pressure is applied and finally fired at 1200 °C.
The porcelain tile working surface features exceptional performances in terms of scratch, impact, stain, thermal shock and chemical resistance. It's easy to clean and very hygienic because it does not absorb liquids and does not release harmful substances.

ACCOPPIATO CERAMICA-LEGNO | LAMINATED CERAMIC-WOOD

L'accoppiato ceramica-legno è un prodotto ottenuto applicando una lastra di ceramica (gres porcellanato) ad un pannello di particelle di legno con una speciale tecnica di incollaggio. Il gres porcellanato è un materiale ceramico ottenuto da materie prime di speciale pregio e purezza, macinate e colorate nell'impasto, compattate ad altissima pressione e cotte alla temperatura 1200 °C.
Il piano di lavoro in gres porcellanato offre caratteristiche eccezionali in termini di resistenza ai graffi, agli urti, alle macchie, agli sbalzi termici ed ai prodotti chimici. È facile da pulire ed assolutamente igienico in quanto non assorbe liquidi e non rilascia sostanze nocive.

The ceramic-wood top is obtained by applying a layer of ceramic (gres porcelain tile) onto a panel made of wooden particles with a special gluing technique. The porcelain tile is a ceramic material obtained using a mixture of stoneware composed by clay and valuable raw materials, which are mixed, body tinted, compacted whilst high pressure is applied and finally fired at 1200 °C.
The porcelain tile working surface features exceptional performances in terms of deep abrasion, stain, thermal shock and chemical resistance. It's easy to clean and very hygienic because it does not absorb liquids and does not release harmful substances.

RIGENERATO DI CUOIO | REGENERATED LEATHER

Il rigenerato di cuoio è un agglomerato ottenuto dall'impasto di sfridi di pellame (minimo 60%) ed altri materiali naturali e rifinito con le stesse modalità utilizzate per il cuoio.

Regenerated leather is the result of the mixture of leather off-cuts (min 60%) and other natural materials. Regenerated leather is finished with the same procedure used for leather.

PELLE | SOFT LEATHER

La pelle utilizzata si ottiene dalla parte più nobile del pellame (il fiore) di bovino europeo tagliato in spessori variabili secondo le esigenze e sottoposto a concia. La finitura esterna è ottenuta con pigmenti a base d'acqua.

The leather comes from the finest parta of the European ox skin (the core) cut in different thicknesses depending on the requests and then tanned. The external finish is obtained by using water based colours.
