Greenbow

our sustainable agenda

“Non vi promettiamo subito il 100% green in ogni cosa, ma di sicuro il 100% di impegno e trasparenza per dare il nostro contributo ad un futuro sostenibile”.

“We do not promise you that everything will be immediately 100% green, but we promise 100% commitment and transparency to make our contribution to a sustainable future”.

« Nous ne vous promettons pas tout de suite 100% green en tout, mais certainement 100% d’engagement et de transparence pour apporter notre contribution à un avenir durable »

“Greenbow - our sustainable agenda” è un impegno di lungo periodo del Gruppo Calligaris e delle persone che lo compongono, a sviluppare, produrre e distribuire prodotti ecosostenibili integrandoli a un sistema aziendale orientato a ridurre l’impatto ambientale sul Pianeta limitando gli sprechi, i consumi di risorse e le emissioni. Un processo iniziato oltre 15 anni fa che ci ha permesso di ottenere importanti riconoscimenti come la certificazione FSC®, che garantisce la provenienza del legno da fonti gestite in maniera responsabile, e la certificazione ISO 14001.

“Greenbow - our sustainable agenda” is a long-term commitment of the Calligaris Group and the members of its team to develop, manufacture and distribute eco-sustainable products integrating them into a business system aimed at reducing the environmental impact on the Planet by limiting waste, resource consumption and emissions. A process started over 15 years ago that has allowed us to obtain important awards such as the FSC® certification, which guarantees the provenance of wood from sources that are managed responsibly, and the ISO 14001 certification.

“L’agenda de développement durable Greenbow” est un engagement à long terme de Calligaris Group et surtout des personnes qui le composent pour développer, produire et distribuer produits eco-durables en les intégrant à un système d’entreprise qui vise à réduire l’impact environnemental que nous avons tous sur la Planète en intensifiant le processus de réduction des déchets, de la consommation des ressources et les émissions. Un processus qui a débuté il y a 15 ans et qui a permis à l’entreprise d’obtenir des récompenses comme la certification FSC®, qui garantit que le bois utilisé provient de sources gérées de manière responsable, et la certification ISO 14001.
